I led engineering teams of 25+ and handled all the hiring. Now I run an AI company for 45,000+ musicians, alone with agents.

EXPERIENCE

2025–now

Founder · LyricEdits

- Product, AI pipelines, full stack, AWS, payments, growth and support, alone with agents.
- **45,000+ musicians**, **115,000+ videos**, **90+ languages**, 100% organic growth.
- Took a feature from request to release in **4h 16m** with an LLM triage step and a Claude Code loop.

2023–2025

Engineering Team Lead · Sema Technologies

- Built a software-metrics platform for engineering leaders from scratch (GitHub, Jira, Codacy, Azure DevOps).
- Led the team that shipped an ML classifier that tells AI-written code from human-written code.
- Ran hiring interviews for the team.

2022–2023

Freelance Software Engineer · Toptal

2020–2022

CTO · Citibeats

- Owned the technical roadmap and the core AI.
- Worked with the **World Health Organization** during COVID on a misinformation platform.
- Won **€500,000+** in public R&D funding and helped secure a **€2M** funding round.

2017–2020

Freelance Software Engineer · Toptal

2014–2017

Chief R&D Officer · Inbenta

- Led engineering teams of **25+**. I handled all the hiring.
- Built the delivery system that let R&D keep growing and still hit its milestones.
- Designed an ML loop that made the NLP engine improve itself over time.

2007–2014

Junior Front-end Developer → Senior Software Engineer · Inbenta

- Helped build the NLP engine behind a search assistant and chatbot answering in **under a second**.
- Built the back-office web app and an NLP ticketing system routing email, social and chat.

EDUCATION & LANGUAGES

Telecommunications Engineering, Universitat Autònoma de Barcelona (2006–11) · English, Spanish, Italian, Catalan
